I didnt get my first hokage and and 3rd hokage skin. This game is a completely illogical piece of crap that wants you to do things it then wont allow you to actually do.. In 1997 I got a disk in the mail labeled 250 Arcade Games, with this being one of the games. It's a fun retro shooter that still holds up well in my opinion. My only complaint is that you jump really high and take fall damage from your own jumps.. great soundtrack fun little indie platforming game

10V10 My Body is Ready for Shantae 5. Frustrating running text simulator with a really interesting story that I would love to explore more of.. Coop enabled but is very buggy, pretty close to black but the movement is much slower. Play Painkiller black.. Uninspired bland game. Good timekiller

Awesome OST. But no numbers, album, wrong titles on the songs? like.....C'mon!. Fun aesthetic and pretty good physics but there are better VR ping pong games.. For the price @ sale Great timewaster..... Good game. I like plants. Needs more positive reviews.. If you're willing to play an RPGmaker game this one is not bad for ~9 hours of gameplay. It also isn't 10\$ like most of the RPGmaker games.

Got it from a friend who bought it with a bundle.. I cannot make this game, Extreme Skiing respond to the controls
So far I think it is a game that I wish I had not purchased
